Leszek Walszewski

SOFTWARE DEVELOPER

Backend PHP developer with over 10 years of experience, dedicated to self-development and continuous growth. With 6 years of full-stack development experience, currently working at Przelewy24, Poland's largest fintech company, developing and optimizing e-commerce payment solutions. Proficient in PHP, JavaScript, and frameworks such as Symfony, Laravel, VueJS, and React.js. I specialize in working with legacy code, refactoring, and system performance improvements. Leveraging AI-powered tools to boost development efficiency. Focused on delivering high-quality work on time and being a valuable team member.
